

PartyKEG classic

Press-in device for stoppers 01/2019

Manual device to insert bung into HUBER PartyKEG classic.

Press-in device for closing HUBER PartyKEGs with the HUBER combi-bungs. The guide stops are fixed for safe and speedy positioning of the barrel. The appropriate pressure is applied simply & consistently thanks to the spring-loaded locking head made of stainless steel and provides perfect bunging every time.

PartyKEG classic

Details:

Press-in device for stoppers 01/2019

1)

1) Put filled PartyKEG on the plate and position it at the stops. Place the combi-bung in the hole.

2)

2) Pull the lever down. The multi-part, spring-loaded locking head first fixes the closure and then presses it in until it stops.

3)

3) The closure is now pressed in accurately and securely. The PartyKEG can be taken off.
